

It is scarcely possible to question this eminent...

- I. It is scarcely possible to mention this eminent man without advertizing for a moment to the question which his name at once suggests to every mind.
- II. Not a day passes on which an honest prosecutor does not ask for what none but a dishonest tribunal would grant.
- III. In the controversies of governments, sophistry is of little use unless it be backed by power.
- IV. If Hastings had, by inadvertent violence, brought himself into a difficult and perilous situation, it is only just to acknowledge that he extricated himself with even more than his usual ability and presence of mind.
- V. Whatever may have been his (Dundas) good qualities - and he had many - flattery itself never reckoned rigid consistency in the number.
- VI. The energy and pathos of the great orator extorted expressions of unvoiced admiration even from the stern and hostile Chancellor; and for a moment, seemed to pierce even the resolute heart of the defendant.

It is scarcely possible to question this eminent...

$$\frac{a-1}{a+t} \text{ or } \frac{1}{a}$$

$$x^2 + x^2 \frac{a-t}{a+t} = a^2 + t^2$$

$$x^2 \left(1 + \frac{a-t}{a+t} \right) = a^2 + t^2$$

$$x^2 = \frac{a^2 + t^2}{a+t}$$

$$= \frac{a^2 + t^2 \times a + t}{a+t} - \frac{a^3 + a^2 t + a t^2 + t^3}{a+t}$$
